

Food Label Table

As you prepare to describe a food product or dish, it is helpful to apply specific descriptive terms to the components of the dish. Complete the **Food Label Table** for the components of *Orange Cream Fruit Salad*. List at least 3 terms that describe each part of the salad. Be sure to consider all aspects of the salad parts—appearance, mouthfeel (texture), flavor, aroma, and temperature.

Ingredient	Flavor	Appearance	Mouthfeel	Temperature	Aroma
Dressing					
Pineapple 					
Peaches 					
Mandarin Oranges 					
Bananas 					
Apple 					

As you complete the **Food Label Table**, you may find that you have used the same adjective to describe more than one ingredient. If this is the case, it will simplify your writing if you discuss those ingredients together, emphasizing the qualities that they have in common.
