

**Motivator/Opening:**

How many of you know someone that has gotten pregnant in 8th or 9th grade? (Most of the time 70 percent will raise their hands).

How does it change their life?

**Activities:**

Each day have an opening catchy line, fun fact or question.

\* It's normal at their age to gravitate away from their parents and toward their peers. They are getting answers to life changing facts from their peers. This creates an enormous problem with the truth about Sex, and STD's.

Fun FACT... Which famous explorer died from Syphilis? (Christopher Columbus)

\*

Have boys on one side and girls on the other. I read the entire chapter outloud with the class.

Be prepared for questions and teachable moments throughout the entire Unit.

**Assignments:**

Assignment Sheet: Identify facts concerning sexually transmitted diseases.  
Student Supplement 4: STIs and the Risk to Pregnancies

Student Supplement 4:  
Birth Control and Safer Sex.  
(questions 2 and 4 are not in the student or teacher book, beware)
