

FutureSmart™

FutureSmart capitalizes on these important Middle School years by empowering students to become the stewards of their financial futures. This three hour web-based resource educates students on the practicalities of daily financial decisions, and the payoffs of long-term planning.

Through a compelling narrative in which students play the Mayor of a town, local citizens are helped with real-life decisions. From weighing opportunity costs, to delaying instant gratification for long-term gain, students face important questions on their way to becoming FutureSmartSM. At the end of the course, students compose their own blueprint for the future.

Recommended Grade Level: 6-8

Total Modules: 7 (25-30 minutes each)

Total Time: 3-3.5 hours

Subject Fit: Social Studies, Business or Economics classes

Standards Alignment: Jump\$tart Standards, National Curriculum Standards for Social Studies, State Academic Standards

Engaging multi-media content for all types of learners

Pre, post, and formative assessments for evidence-based learning

Certificate-based skill development

Select Course Modules

Paint, Posters, and a New Pad - The economics of everyday life are full of nuance and complexity. Behind every simple decision are the many factors that must be weighed, balanced, and assessed to reach the optimal solution. In this activity, students learn about some of those factors, from supply and demand, to income and expenses. Most importantly, they learn all of this against the backdrop of their own shopping experience, as they update interior decor of their childhood room.

Advise Me, Please! - There is no greater investment than the one you make in yourself. This is a lesson that should be learned early and often. For every student that feels the pressure to find a path after high school, this activity is a necessary release valve. In this activity, students learn about the many opportunities that exist beyond high school, from trade school to four year institutions.

Paint, Posters, and a new Pad
