Dear Instructor:

These detailed lesson plans contain comprehensive instructor materials for *Code Blue*. They are intended to be used in conjunction with the PowerPoint presentations found on the *Code Blue* Instructor Materials CD. All quizzes, vocabulary activities, and other resources in these lesson plans are copy ready and you have express permission to copy and distribute these materials for instructional purposes.

Included in these lesson plans, you will find:

## **Student Exercises**

Student discussion questions and exercises for each chapter of *Code Blue*, including group activities, role playing scenarios, writing exercises, math concepts, vocabulary puzzles, and much more.

## **Answers to Student Exercises**

The answers to the questions, exercises and activities provided above.

## **Test Bank**

A copy ready test bank (broken up by chapter) with answers.

## **Lectures**

Lecture helps for each chapter, covering the major points, characters, vocabulary, etc. (These lectures go along with the PowerPoint slides for each chapter found on the *Code Blue* Instructors' Materials CD, which is free with the purchase of a classroom set of *Code Blue*).

## **Adaptations**

These lesson plans are based on a 40 minute class periods. Recognizing that each school's schedule is structured differently, each chapter's plan has an Adaptations section that gives tips for shortening or expanding the lesson to allow *Code Blue* to fit into your time frames. If you intend to use *Code Blue* as a brief supplemental textbook, you may want to read all of the plans first, marking those sections that are applicable to your format and adjust the timing as necessary. Alternatively, if you intend to use *Code Blue* as a full quarter long course, you will want to read the Adaptations sections for expansion ideas and you well may choose to use the supplementary chapters found on the *Code Blue* Instructors Materials CD.

I would remind you that there are additional chapters included on the Instructor Material CD. These materials were prepared after the publication of the Health Occupations Edition to help

students study for the national exam. They contain additional topics not included 'in the printed text.

**Topics covered by the new materials include:**

- Teamwork
- Systems
- Cultural Diversity
- Discrimination
- Legal Responsibilities of Healthcare Workers
- Risk Management
- Quality Assurance and Safety

I enjoy hearing from teachers and students. I am available by e mail at [remcdermott@traemus-books.com](mailto:remcdermott@traemus-books.com). If you have questions or suggestions, or see a need for additional materials, please drop me a note. I hope you and your students enjoy *Code Blue*.

Sincerely,

Richard E. McDermott, Ph.D.  
Author of *Code Blue*
