Name _____ Date _____

Initial Observation

I think it is really stupid that boys have to take Home Economics. Why should I have to learn to sew and cook and - I don't plan on ever doing it - I'd rather take a computer or another physical education course. There is only five guys in this class. I'm going to go to my counselor during homeroom tomorrow and try to Get Out Of Here!

Upon Reflection

Well, the counselor said all the sections of computer were full - so I'm stuck in here for the quarter.

I still don't believe it but my Apple Brown Betty was pretty good! I guess it wouldn't hurt to learn a few cooking tricks - maybe this won't be so bad.
