

## Unit Two - Law and Order

### Summary of the World

**If we could shrink the Earth's population to a village of precisely 100 people, with all existing human ratios remaining the same, it would look like this . . .**

**There would be 57 Asians, 21 Europeans, 14 from North and South America, and 8 Africans.**

**51 would be female and 49 would be male.**

**70 would be nonwhite while 30 would be white.**

**30 would be Christians and 70 would be of other religions.**

**80 would be in substandard housing.**

**70 would be unable to read.**

**Half would suffer from malnutrition.**

**One would be near death and one would be near birth.**

**Only one would have a college education.**

**No one would own a computer.**

**Over half the entire village's wealth would be in the hands of six people, and all six would be citizens of the United States.**

**When one considers our world from such a compressed perspective, the need for both acceptance and understanding becomes glaringly apparent.**
