

UNIT 12 - REPRODUCTIVE SYSTEM

ACTIVITY - The Female Reproductive Organs

Objectives:

Students will identify the female pelvic organs and will trace the path of the human egg cell non-fertilization.

Materials:

Markers

Paper

Strategy:

The students will trace the journey of the egg from the ovaries to the outside of the body. The organs will be correctly identified and the function of each explained.

Include the following:

Ovaries

Fimbriae

Labia Majora

Urethra

Uterus

Ova

Labia Minora

Anus

Fallopian Tubes

Vagina

Cervix

Clitoris
