

Objective 3

- _____ 9. Every time Renaldo and Risa went shopping with their two children, the children wanted to buy expensive clothes and shoes. Renaldo and Risa decided to put the children on a quarterly clothing budget, giving the children responsibility to keep track of their spending. As the children practiced keeping their budget, they started to develop good consumer habits. What positive aspect of family life is being described?
- A. Acceptance
 - B. Learning
 - C. Loyalty
 - D. Safety and security
- _____ 10. Zoey had three siblings, and they didn't always get along with each other. Zoey's mother had always stressed to her that you did not talk about their family's flaws to their friends. What positive aspect of family life is being described?
- A. Enjoyment
 - B. Love
 - C. Loyalty
 - D. Resources
- _____ 11. When Julia died, her adult children decided they would invest the money she left them and use the interest to take a family vacation each summer. What positive aspect of family life is being described?
- A. Acceptance
 - B. Loyalty
 - C. Safety and security
 - D. Resources
- _____ 12. Liz, Jeri, and Dena live with their mother. Their mother requires each of the children to prepare and evening meal once a week. They also must make their bed before school and clean their bedrooms on Saturday. What positive aspect of family life is being described?
- A. Acceptance
 - B. Enjoyment
 - C. Leadership
 - D. Love

Objective 4

- _____ 13. Which of the following statements about older adults and their grown children is true?
- A. Being needed by loved ones decreases the self-esteem of the older adult.
 - B. Many older adults feel stressed because they must care for their grown children and their grandchildren.
 - C. Many older adults give practical support to their children's families.
 - D. Older adults' experiences and perspectives on life are usually too outdated to benefit adult children.
- _____ 14. Which of the following statements about grandparent-grandchild relationships is true?
- A. Most grandparents and grandchildren will naturally bond even if they don't interact.
 - B. Grandparents may have time and patience that parents do not.
 - C. Older grandparents are not a good source of emotional support for grandchildren.
 - D. Most grandparents resent the drain grandchildren are on their time and emotions.
- _____ 15. The term "sandwich generation" is often used to describe people who:
- A. don't have time to cook because they are caring for small children.
 - B. feel caught in between raising their children and caring for their aging parents.
 - C. no longer eat together as a family due to conflicting schedules.
 - D. are caught in a cycle of one generation helping the next generation.

Objective 5

- _____ 16. Shayna's mother never worked outside the home, and neither did Jim's mother. Their mothers spent most of their time caring for children and taking care of the home. However, both Jim and Shayna work full-time. They clean the house together on weekends, and Jim takes the children to school each morning. What might be the reason for the changes in their family's roles?
- A. Society requires equal responsibility for equal respect.
 - B. Functional families require all to perform and work outside the home.
 - C. Families will be better prepared for the loss of family members if both family members work.
 - D. Employment of both men and women outside the home is affecting multiple role responsibilities.
- _____ 17. Luke just lost his job due to job reductions, but his wife Rana has the opportunity to work full-time. Luke and Rana have decided that Luke will stay home with the children until he goes back to work. What is likely the reason for changes in this family's roles?
- A. Gender equity requires men and women to do more.
 - B. Division of labor requires men to do more.
 - C. Gender equity means either spouse may be employed, cook the meals, clean the house, or take care of the children.
 - D. They would be seen as a dysfunctional family if Rana did not go to work.

Objective 6

- _____ 18. Danny was hurt in an auto accident and now uses a wheelchair. His wife has had a ramp built so that the chair can easily enter the home. They have also purchased a van that can carry the wheelchair. Danny's wife has also switched their bedroom to the downstairs one so that the room is accessible to the wheelchair. This means Danny's son had to move to an upstairs bedroom. Which factor is being demonstrated by Danny's family?
- A. Acceptance of the family member
 - B. Adaptation by the family
 - C. Integration by the family
 - D. Involvement by the family

- _____ 19. Jackie has Down Syndrome and cannot live on his own; he has always lived with his parents. His older brother helps care for him, and intends to take over his care when their parents are no longer able. In this scenario, which factor is impacting the family most?
- A. Acceptance of the family member
 - B. Adaptation by the family
 - C. Integration by the family
 - D. Involvement by the family

Objective 7

- _____ 20. Which of the following is a **functional** family behavior?
- A. Demonstrating abusive behaviors that do not respect the worth of family members
 - B. Demonstrating family unity and loyalty, with members working together to solve problems
 - C. Demonstrating weak or nonexistent parental role models
 - D. Denying problems in the family and being unwilling to seek help
- _____ 21. Which of the following is a **dysfunctional** family behavior?
- A. Failing to meet basic physical and emotional needs of family members
 - B. Maintaining positive community relations
 - C. Meeting basic needs of members
 - D. Practicing good communication skills by talking, listening, and laughing with one another
- _____ 22. Which of the following is a **dysfunctional** family behavior?
- A. Respecting and valuing their members and their feelings of worth
 - B. Serving as strong, positive parental role models, capable of leading the family
 - C. Sharing emotional support and caring, loving feelings
 - D. Sharing little or no positive relations among family members
