

# Bell Ringer Tuesday

Why is it common to have a 9  
minute snooze interval on  
alarm clocks, why not 10  
instead?

# Bell Ringer Tuesday

Why is it common to have 9 minute snooze interval on alarm clocks, why not 10 instead?

By setting it at 9 minutes, the alarm clock only needs to watch the last digit of time. So, if you hit the snooze at 6:45, the alarm goes off again when the last digit is 4. They couldn't make it 10 minutes, otherwise the alarm would go off right away.

# Bell Ringer Wednesday

By moving one of the  
following digits, make the  
equation correct

$$62 - 63 = 1$$

# Bell Ringer Wednesday

By moving one of the  
following digits, make the  
equation correct

$$62 - 63 = 1$$

$$2^6 - 63 = 1$$

# Bell Ringer Thursday

What seven letter word  
has hundreds of letters  
in it?
