Kuder Activities Lesson 2: Student Worksheet

This activity presents you with different options you have after completing high school as well as some occupational possibilities that go along with different levels of experience or education. In order to complete this activity, you will need to have completed the Kuder Careers Interests Assessment®.

- Go to <http://navigator.kuder.com> or your custom website. Select **I already have an account**, then enter your username and password. Next, click **Sign Me In**.
- Click on **Plan for Education** and select **Options after High School**. You'll see a list of options available to you after high school.

Experience or Education Option One

- Click an option you're considering and write it here: _____
- A list of your top two or three career clusters will appear based on your assessment results. Choose a career cluster you are interested in and click the plus sign next to its title if it isn't already expanded. Write the cluster here:

- Once you have chosen a career cluster, you'll see a list of occupations you can pursue based on its required experience or education level. Click on three different occupations in this list and research them by reading their complete descriptions, watching their videos, and filling in the following information for each.

Occupation #1: _____ Salary Range: _____

Primary Tasks: _____

Occupation #2: _____ Salary Range: _____

Primary Tasks: _____

Occupation #3: _____ Salary Range: _____

Primary Tasks: _____

Experience or Education Option Two

- Choose a different option after high school by clicking on **Plan for Education** and selecting **Options after High School**.
- Click on another option you are considering and write it here: _____
- Choose the same career cluster that you previously selected by clicking on the plus sign to the left of its title. Research three more occupations in this list by reading their complete descriptions, watching their videos, and filling in the following information for each:

(Note: If the occupation list did not change enough to research three more occupations in this cluster, you may choose a different option after high school. Military occupations do not include salary-range information.)

Occupation #1: _____ **Salary Range:** _____

Primary Tasks: _____

Occupation #2: _____ **Salary Range:** _____

Primary Tasks: _____

Occupation #3: _____ **Salary Range:** _____

Primary Tasks: _____

Comparing Experience and Education Options

- Did the occupations available in your chosen cluster change when you picked a different post-high school experience or education level? Why do you think that is?

- Did the salary ranges for the occupations you researched change depending on the amount of experience or education you chose?
