

FCCLA Go is designed to be used as a method of reviewing the FCCLA Units. It can also be used as a study guide for the Oklahoma FCCLA contest, New Member Facts as well as district and state officer tests.

*Make copies of the "FCCLA Go" Bingo card and the clues for each student. Have students to select the clues of choice and write on the Bingo card. Another method to expose students to terminology.

The teacher then reads the clues/questions and the answers are in bold and in parentheses after each.

*Below are free bingo card generator resources if a teacher desires to use the clues and create bingo cards:
