## **Graph of the Week**

April \_\_\_\_\_, 2020

Name\_\_\_\_\_

Analyze the graphs below and write a reflection on what you think the graphs are communicating to you. To guide you with your response, start with some observations.

- What is the topic of the graph?
- What quantities are being compared? (If there are x- and y- axes, what do they represent?)
- What are some observations that you can make based on the graphs?
- What do you foresee happening in the next 10 years?

## Questions to ask when reading graphs:

- Is there an upward or downward trend?
- Are there any sudden spikes in the graph?
- ➤ What is being compared in the graph?
- What prediction can I make for the future?
- What inferences can I make about the graph?

## Job Losses Mount in **Entertainment Industry** U.S. industries with most jobs cut in March 2020 due to the coronavirus pandemic Entertainment/leisure 83,234 11,991 Automotive 8,430 Services Non-profits 5,314 Industrial goods Transportation 4,773 Real estate 4,592 Energy 3,629 Source: Challenger, Gray & Christmas Job Cut Report statista 🔽 (cc) (i) (=)
