## Join the Virtual Farm Field Trip!

Florida Agriculture in the Classroom is excited to announce that we are partnering with [Shiftology](#) to host five different [virtual farm field trips](#) in 2021. Each tour will highlight a different part of Florida's diverse agriculture industry and run no more than one hour.

Join us LIVE for our virtual farm field trip to [Traders Hill Farm](#) in Hilliard, FL. Traders Hill Farm is the largest environmentally-safe aquaponics production facility in the Southeastern United

States. This farm raises tilapia fish that create the nutrients needed to grow lettuce hydroponically. Traders Hill Farm sells microgreens and a variety of lettuces in grocery stores, restaurants and resorts throughout Northeast Florida, Central Florida, and Southern Georgia. They also sell produce to local school districts.

The tour will begin in the fish production facility, where students will learn what it takes to grow happy, healthy fish. We will then move to the seed starting facility, and finally work our way to the greenhouses where more than 5,000 heads of lettuce are grown in floating hydroponic beds.

## Free Photo Images for Student and Teacher use

Unsplash is a great source of free high resolution images that you and your students can use in various school projects and art works. I am definitely adding it to this of the best free [photo sources for teachers and students](#). Unsplash is totally free and does not require a sign up. You can download and use photos there with or without attribution. Here is what its [license](#) states:

- All photos can be downloaded and used for free
- Commercial and non-commercial purposes
- No permission needed (though attribution is appreciated!)

Unsplash hosts over 2 million free photos provided by 'a generous community of photographers'. The site also has a section for education named [Unsplash for Education](#) where students can search for and access a wide variety of photos to use in class.
