Motion to accept minutes

Motion made by Melissa Peterson

2nd by Veretta Parker

Approved as read

Treasurer's Report

Given by Amber Pagel

A budget has been established. Additional scholarships will be awarded.

Dolores Cotton, Dana Chandler

Approved as read

Division Reports

Doug Jones- Portal for awards will open November 1 and closes March 1, 2023. Be sure to efficiently answer the questions on the applications.

LouAnn Lively- working on curriculum. She introduced Toni McLemore, the HSEA President, to promote the HSEA conference. The National Consortium conference is in Charleston, South Carolina in October.

Nancy Harris- Make sure to attend tomorrow. There will be great session where we will discuss CNA.

April Williams- No report.

Mikka House-Moore- Simulations are still being allowed. In 2024 there will no longer be national testing. Schools will have to test their own students.

Melissa Johnson/Kathleen Passmore- No report

Dana Chandler- PN Coordinators are working on a program for Diploma Nursing. It has to go through legislation. This will allow an LPN to RN bridge to happen more quickly.

PN Instructors- No report

Michelle Noble- No report

Respiratory Therapy- No report

Heather Black- Working with the Oklahoma Board of Pharmacy to provide opportunities for students.

Mallissia Guthrie- No report

Stormie Roberson- CTAC met yesterday. Vendors and sponsors are here today. Support them as they support us. CTAC receives dues from schools and members to represent each division.

Ladonna Selvidge- There is an ethics commission for legislators that oversees how they spend PAC money. Our dues are very intentionally spent. Many bills have been passed that affect CTE. Vouchers are one of those items that could take funding from Career Tech. There is also talk to combining our funding with that of state schools. That would greatly affect Career Tech. The PAC is who represents us when these types of legislation are presented. There is a PAC dance tonight (August 1) to help raise funds for PAC.

Veretta Parker- Kaleidoscope award is being changed to include inclusion and equity. There will be a symposium in November that will highlight diversity, equity, and inclusion.

Lisa Dyer- Open enrollment for mutual benevolence.

Membership Committee- no report

Natasha Trotter- simulation boot camp is coming up November 7th at Tulsa Tech. Laerdal is sponsoring the event. Simulation is becoming more of a full-time job.

Cori Gray- Deputy State Director- welcomes HCE to the 55th annual summer conference. Create space for your students. Make them feel comfortable in our classes. We were doing DEI long before it was a trend. Continue to keep up the good work.

Lara Morris- Scan the health careers verification form to turn in verification for summit attendance. There are over 90 new teachers or teachers who have changed positions. There is a quilt that will be presented to raise funds for HOSA Camp Ignite. National Health Science Standards are being updated. Meetings will be set soon to revise program courses, objectives, hours, etc. Grant money has been received for specific use in several PN programs. It is our hope to receive this type of grant funding for all programs. OHCETA is providing a membership to HSEA for all OHCETA meetings. Virtual training to new health science teachers will be on Saturday, August 20th from HSEA. Utilize the HSEA facebook page to access files and connect with other teachers.
