# Community Service Project Proposal

## SELF-EVALUATION

**Directions:** Answer the following questions using complete thoughts and ideas. Please be honest in your response, only your teacher will read this. 20 points possible.

Critique your performance from beginning to end. What role did you play in the planning, research, paper, and presentation? What specific tasks did you complete?

If you did this project over again, what would you do differently and what would you keep the same?

How do you feel your group worked as a team? Did someone stand out as a leader? If so, what made them stand out? If not, explain.

What did you learn in this experience (either from your own project presentation, from your peers, or a combination of both)?

If you were to select one of the projects for a class/FCCLA project, which one would you choose? Why?
