Apprenticeship Journal

The journal provides an opportunity for you to write about your learning experience. There are several ways that you can use your journal to examine your apprenticeship experience.

You may write about anything that relates to your experience in school or at the apprenticeship or about experiences outside school that relate to the “you” which comes to school and learning. If you choose, you may use any of the ideas listed below as starting points for your journal entry. You may wish to use them once only, or to repeat the topic if it seems useful or important.

While you may have entries about your ICAP experience the main thing you need to journal about is after the apprenticeship is to capture what you did and compare it to what you were expecting to learn about a possible career.

This journal is specifically designed to help you process the learning that happens as a result of your apprenticeship, though it is not a private journal. Your teacher will collect and check your journal as proof of your apprenticeship. It will also be used to write a career reflection.

Basic Guidelines

- All entries should be numbered and dated.
- Each entry should be a minimum of 75 words.
- Content should be thoughtful, detailed and honest.
- Writing should be legible and written in Standard English.
- You may address other issues not prompted below as they come up.
