If you are interested in being a mentor, please complete the application by **June 1, 2024** at this link:

Curriculum Spotlight

"According to a survey by EVERFI, a leading education innovator, **students are not equipped to make critical financial decisions after they graduate high school and move into adulthood.** Understanding and making informed decisions about budgeting, saving, credit and credit scores, and managing student loans are critical skills for students to master". This quote was taken from the OKMM Outlook newsletter.

You don't have to teach financial literacy as a full course to include financial information in any FCS class. How about 10 minutes on Friday's? Check out May's edition of [Financial Friday](#), Oklahoma Money Matters' online personal finance question and answer forum. This month, we're answering a question about transitioning your finances from college to career.

So as you plan for next year, keep this resource in mind: ***Your Money Matters*** is an excellent resource to use in any classroom, particularly with juniors and seniors. https://www.oklahomamoneymatters.org/Resources/documents/YMM_HS_Guide.pdf
