

# **Work From Home Remodel Interior Design Project**

**Katelyn Lyons  
2025 Curriculum Showcase**

# Work From Home Remodel

- I created this project for my Interior Design 1 class, but it could easily be modified for Interior Design 2 or FACS Basics.
- This assignment meets standards NS 11.3 and NS 11.6.
- I assign this short project to students after completing Topic 2, Housing.
- I give students four class periods to complete this project then they present their project to the class.
- This is an all digital activity, but you could easily modify this for paper.

# About the Project

- **You have covered**
  - Unit 1: Factors Related to Making Housing Decisions
  - Unit 2: Budgeting for Housing
  - Unit 3: Housing Industry and Influencing Factors
  - Unit 4: Creating a Safe, Secure, and Well-Maintained Home
- **Now what? Are students ready to design for a client? Not yet, but this is the perfect first design project to get them going because they are the client!**
- **Students take a space in their home and turn it into a Home Office.**
  - Spare room
  - Closet
  - Corner
- **They are given a budget of \$4000 to remodel the space. This includes materials and furnishings.**
- **I provide them links to find materials and furnishings.**

# What I give the students

**You have just accepted a Work-from-home job with great pay. The first thing that needs to be done is to find a space in your current home that will work as an office space. Once you have chosen a space you will remodel the space to fit your needs. You have a budget of \$4000.00**

## **Requirements**

**You will fill in the Google Slide template that has been provided and use the attached links to help you find materials, furniture and furnishings. Each slide will include all requirements.**

## **Points Total**

**150**

# Work from Home Remodel

Interior Design

# Space to be Remodeled

- Include Image of space as it is today
- Space Features
  - Windows?
  - Flooring Type
  - Square footage

# Factors to Consider

- Make a list of factors that need to be considered when drawing up a new floor plan and design
- Include at least three

# Mood Board

- Include at least five images that will inspire the space
- Things to think about
  - Color
  - Flooring
  - Furnishings

- Include Product name and price on all things!

# Space to be Remodeled

## Space Features

- 1 three pane Bay window
- Current Flooring-high tuft beige carpet
- Features garage door entrance, entry to kitchen and formal living room

# Factors to Consider

- Room sits off the kitchen and formal living area so there is a lot of foot traffic.
  - Privacy and quiet could be an issue.
- Bay window brings in a lot of natural light,
  - Glass may need to be replaced.
- Carpet will be an issue if choosing a rolling chair.
- Are there enough outlets for any electronic needs?
