

Let's Go to College: Career Discovery (4th & 5th Grade)

We are all part of a community. A community is a group of people that share common interests and often live in the same area. You may be a part of a community with your school, your neighborhood or your city. In each community, there are people who help make it run well. For example, at your school there are teachers, principals, custodians and bus drivers. Each of these people has an important job to help the school function well.

In the space below, think of two other communities that support you. Write down who the helpers are in that community.
