

Let's Go to College: School Success (Kindergarten-1st Grade)

To be successful in school you'll need to create a routine. A routine is a schedule that you can follow each day so you'll know what to do and when to do it. It'll keep you on top of things like preparing your backpack early, doing your homework each day and going to bed on time. All these things can be part of a plan that helps you do your best in school. You probably already have a routine that you practice each day, like going to the cafeteria for lunch or to the library for reading time. Creating a routine will help you learn about these different places in your school. If you're not sure what's already a part of your routine, ask a parent or your teacher. They may help you write it down and even share other important items that will be great for school now and later on in college. Once you figure out a few school success tips of your own, you'll be able to pass them on to others.

Success Tips

Instructions: Next year some new students are going to be in your class and they'll need advice about how to be a good student. Use the sticky notes below and write a few tips that will help them be successful in school.

**Listen when the
teacher is talking**

**Bring your pencil to
school each day**

Let's Go to College: School Success (Kindergarten-1st Grade) **ANSWER KEY**

To be successful in school you'll need to create a routine. A routine is a schedule that you can follow each day so you'll know what to do and when to do it. It'll keep you on top of things like preparing your backpack early, doing your homework each day and going to bed on time. All these things can be part of a plan that helps you do your best in school. You probably already have a routine that you practice each day, like going to the cafeteria for lunch or to the library for reading time. Creating a routine will help you learn about these different places in your school. If you're not sure what's already a part of your routine, ask a parent or your teacher. They may help you write it down and even share other important items that will be great for school now and later on in college. Once you figure out a few school success tips of your own, you'll be able to pass them on to others.
